

Roshield Mouse & Rat Repellent Spray

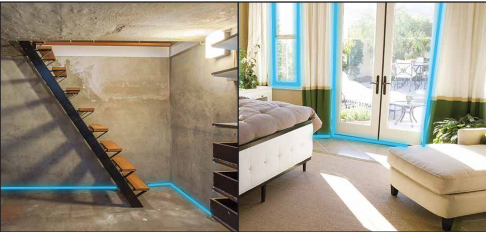

Thank you for choosing Roshield Mouse & Rat Repellent Spray. This product is specially formulated to repel mice and rats from your home or workspace using natural ingredients. Our easy-to-use spray is designed to target problem areas, preventing rodent entry and deterring their presence, helping you maintain a pest-free environment. Whether you’ve noticed signs of rodent activity or simply want to take preventative measures, our spray offers an effective, non-toxic solution for peace of mind.

Ingredients:

Castor oil 0.60% | Methyl Salicylate 0.50% | Civetone 0.006% | Menthol 0.002%

Application areas:

		
ENTRANCE: Door, Windowsill, Pipe channel, Holes, Sewer entrance, etc.	ACTIVITY PATH: Room corner, Wall corner line, Crack under the door, etc.	HIDDEN PLACES: Mouse nest, Ceiling, Under the shelf, Cabinet, Behind the refrigerator, etc.

Usage instructions:

- Step 1:** Clean up the rat droppings and the waste firstly, then use repellent to spray.
- Step 2:** Shake the bottle well before using, adjust the nozzle on the bottle to either SPRAY or STREAM setting.
- Step 3:** That Areas must be treated:
- Spray those entrances of building where the mice might enter, such as windowsills, pipe channels, doors, etc.
 - Spray in areas where mouse droppings are evident, including room corners, wall edges, ceiling spaces, door undersides, and nests. Also, treat objects commonly bite by mice, such as electrical wires, data cables, etc.
 - Spray 2 times every 0.5-1.0 meter along the mouse invasion path. It is necessary to spray for 3 consecutive days.
- Step 4:** After spraying, keep doors and windows open to allow the rodents to escape. The spray can also be used in conjunction with mouse traps for enhanced results.
- Step 5:** Wait 1-2 weeks for results.
- Step 6:** It is recommended to spray 2 to 3 times a month.

Caution:

For indoor use only. Keep out of reach of children and pets. Avoid direct contact with eyes; if contact occurs, immediately rinse with plenty of water and seek medical advice if irritation persists. Do not ingest the product. Always read and follow the instructions on the label carefully. Ensure that treated areas are well-ventilated after application. Store in a cool, dry place, away from direct sunlight, heat sources, or open flames. In case of accidental spillage, clean the area with soap and water. Dispose of the product responsibly in accordance with local regulations.

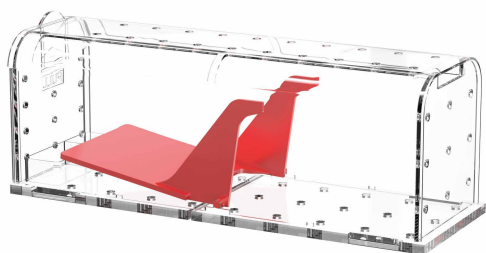

Additional Tips:

- **Check for Gaps:** Regularly inspect areas where mice may enter, such as around windows, doors, and pipes, and seal any gaps or cracks to enhance the effectiveness of the spray.
- **Regular Cleaning:** Keep your environment clean and free of food debris to reduce the chances of attracting rodents.
- **Use in Combination:** For severe infestations, consider using the repellent spray in combination with Roshield humane traps to capture the rodents while deterring others.
- **Reapply After Heavy Cleaning:** Reapply the spray after mopping or heavy cleaning to ensure ongoing effectiveness.
- **Monitor High-Risk Areas:** Continuously monitor areas with high rodent activity to track the product's effectiveness and adjust the frequency of application as needed.
